⊢ distance in which individuals are clustered
Dot sizes: ● = 1,000+ ● = 100 - 999 ○ = 10 - 99 ○ = 1 - 9 visits

The above map depicts: 184 visits from 10 Apr 2009 to 18 Apr 2009
This map is normally updated *daily* (latest: 2009-04-18 05:44:58 GMT)

Actual update frequency may vary: see notes below.

**Running total of visits to the above URL since 9 Apr 2008: 6,264
Total since archive, i.e. 10 Apr 2009 - present: 184 (not necessarily all displayed - see below).
Visits on previous 'day': 20.**

Additional Notes about totals and map updates (for full guide see Map Key):

The map shows individual visits to the web site shown at the top of the page, clustered within a given distance.

The location of each visit is based on the IP address of the computer used.

Update frequency variation: In order for your map to be 'updated' (whether daily, weekly, or monthly) *the number of visitors shown must also have grown by a certain percentage since the last update. This percentage may have changed recently, and is*
